Skypod® lantern roofs

Give your
flat roof
a makeover

Let there be light

Give flat roofs a makeover with Skypod – the ideal way to brighten up uninspiring interiors

Go square

Skypod^{sq} allows you to make a real statement with its symmetrical architectural stylings

Flood your home with
**natural
light**

Imagine creating a stylish new living space that's flooded with natural light. Imagine an inspiring contemporary design feature that will not only enhance your lifestyle but add value to your home too. Some would call it the 'wow' factor. We call it Skypod – an innovative lantern roof range that's been created for today's style-conscious homeowner.

The background image shows a bright, modern interior space. A large, multi-paned glass skylight is set into a white, stepped ceiling, allowing natural light to flood the room. Several square, recessed ceiling lights are visible, some of which are illuminated. The walls are a light, neutral color. In the foreground, a white-framed glass door or window looks out onto a lush green garden with trees and bushes under a clear blue sky. The overall atmosphere is clean, bright, and airy.

Living
spaces with
WOW
factor

In the past, most lantern roofs have been made from aluminium. These are not only expensive, but the 'industrial' design isn't to everyone's taste. That's why we created Skypod. As well as offering outstanding looks, it costs less – and provides the perfect match for your existing PVC-U windows and doors.
