## **The Giallo Veranda**

**Beautifully smooth & robust**

The Giallo Veranda is known for its smooth, robust look and is equipped with a reinforced gutter profile. Because of this extra reinforcement the Giallo can be mounted with just two posts with a span of 6 metres. The maximum span on two posts is what makes the Giallo unique. The result is maximum enjoyment with a free and open view.

## The Giallo is extra strong, meaning that it can be made with just two posts, with a span up to 6 metres!

The robust & smooth aluminium veranda provides a solid and stylish extension to your home. The Giallo is available in three RAL colours: Cream White, Traffic White and Anthracite Grey. The veranda comes with a standard polycarbonate roof in which you can choose from various types depending on your wishes.

## **The Pigato Veranda**

### **Affordable, luxury veranda with a glass roof**

The Pigato is the luxury aluminium veranda of our product range. This veranda is reinforced with a steel strip in the gutter profile, meaning that this veranda can be fitted with a laminated glass roof. This will give you the perfect lighting allowing you to enjoy your outdoor views without losing light in your home, providing a sense of enrichment and pure luxury.

## The glass roof of the Pigato always gives you the perfect lighting.

The Pigato veranda is a true asset to your garden. Not only because of its luxurious look but also because of the comfort that an aluminium veranda can offer.

The veranda is available in the colours: traffic white, cream white and anthracite grey. The Pigato comes standard with a glass roof, but if desired, it can also come with Polycarbonate. In addition, this veranda comes with various options for styles of guttering and posts that best matches your home.

## **Verdeca; Folding roof with aluminium**

### **Ultimate flexibility with a sleek design**

Enjoy extra living pleasure in the garden through ultimate flexibility. Who would not want that? The Verdeca roof canvas is made of a sun-resistant and water-resistant fabric. Are you sitting under this veranda and want to enjoy the sun? Then, with one push on the button, raise the canvas (partially) so you can immediately enjoy maximum light and the beautiful weather. If you prefer to sit in the shade or seek protection against wind, rain or UV radiation, you can close the screen with the same ease.

By adding glass sliding walls you can choose to extend your Verdeca veranda to a complete garden room. With the flexible Verdeca veranda, you can therefore enjoy optimum comfort at your terrace.

The Verdeca veranda has a white water-repellent canvas and a grey colored frame from aluminium. In addition, the special geometric design ensures that the interior construction offers maximum strength and wind resistance to the aluminium profile.

The veranda looks sleek and offers perfect visibility because the stainless steel connection elements and screws are concealed invisibly. In addition, the rain gutter is equipped with an anti-draft system, which prevents the wind from entering between the canvas, the rails and the rain gutter.

#### Integrated LED lighting in the beams

Optionally, we have integrated dimmable LED light lines in the canvas. This way you can easily switch between practical, bright and atmospheric low beam lighting.

#### Effortless drainage of water

Rain water dripping down from the front? Not with the Verdeca veranda! The smart IDS (Integrated Drainage System) ensures invisible drainage of rainwater through the uprights at the front.

#### 100% water-repellent

The foldable canvas is 100% waterproof.

#### 6-wheel system

The innovative 6-wheel system carries the fabric up and down over the rail, silently, quickly and in a well-balanced way.

## **Pinela; Aluminium Louvered Roof**

### **The perfect light on your terrace**

Want to decide for yourself how you want to enjoy the sun and the weather under your pergola? Now this is possible with our Pinela pergola. With the remote control you can easily tilt the panels in the roof to a different position. This way you have the control to play with the light, the shade and the airflow under your roof.

During the summer for example, you have the flexibility to either sit in the sun or take advantage of the shade. In the winter on the other hand, you will experience the benefits of the waterproof roof and the protection against all kinds of weather conditions! This allows you to enjoy your terrace during all seasons, all year round.

The Pinela has a durable and sleek design which makes this roof a real addition to your home. With a remote control, the panels are easy to rotate into a position that creates the perfect light for you. Because the panels are continuously adjustable up to 120 degrees, you can even let the panels rotate with the sun!

#### Automatic operation

The system can be controlled remotely. This allows you to adjust the pergola to your wishes at the touch of a button.

#### Effortless drainage

The water on the panels is led to the gutter and then drained effortlessly.

#### Unique rotation technology

The stepless rotation technology provides strength, stability and sealing. This is due to a special high-pressure system.

#### Protection

The panels close with a synchronous movement on the side profiles, which guarantees optimum protection.

## **Pinela Deluxe; Aluminium Louvered Roof**

### **The convertible effect in your garden**

Would you like to have an open space above your terrace in no time? With the push of a button, you can open the roof panels of the Pinela Deluxe and create a convertible effect in your garden.

In the open position, the pergola offers maximum light. At the same time, in a closed position the Pinela Deluxe protects against various weather conditions and offers you a shady spot on sunny days. Rain or shine, you will experience the ultimate outdoor living feeling.

With the Pinela Deluxe you can create an outdoor space that offers protection against all types of weather. When you open the synchronously moving panels, a large space is created above your terrace. When closing, the panels simultaneously press on the gaskets of the side profiles providing optimal protection.

#### Automatic operation

You can control the roof of the pergola with one push on the remote control of the Somfy system.

#### Effortless drainage

The water on the panels is led to the gutter and then drained effortlessly.

#### Optimal light

When the panels are fully opened, you will experience optimal light.
